WORK EXPERIENCE

The Zulfis

Web Developer Intern(PHP - LARAVEL)   June 2024
- Built and maintained features using **PHP** and **Laravel**
- Created **CRUD operations** and integrated **RESTful APIs**
- Assisted in **MySQL** database design and performance tuning
- Worked with **Laravel MVC architecture** and **Blade templating**

EDUCATION

University of Education

Bachelor of Computer Science - 3.5   August 2023 - September 2027

PROJECTS

E-Commerce Website
- Developed a full e-commerce platform in PHP with product listings, user auth, and order management
- Built an admin dashboard, session-based cart, and Stripe payment integration
- Added product search, filtering, and quantity-based cart updates
- Used MySQL for efficient data storage and backend operations

Food Ordering Platform
- Built a Laravel-based food ordering app with user auth, session cart, and real-time API integration
- Developed an admin panel for managing products, orders, and users
- Integrated COD checkout and optimized MySQL for smooth data handling
- Designed a responsive UI for a secure and seamless user experience

URL Shortening API
- Built a RESTful URL shortening API using Laravel with secure token-based link generation
- Optimized database performance and added analytics tracking for link usage insights

Laravel blog website
- Built a full-featured Laravel blog with dynamic content and secure login system
- Created an admin panel for managing posts and integrated email notifications for new updates

Movie Reservation System
- Built a Laravel-based Movie Reservation System with seat selection, showtime booking, and Google OAuth login
- Integrated Stripe for secure payments and generated PDF tickets with DomPDF
- Enabled one-click ticket download with a custom layout
- Designed a responsive UI using TailwindCSS and managed backend with MySQL, RESTful routes, and Blade

SKILLS

Languages: PHP, JavaScript, HTML, CSS
Frameworks & Libraries: Laravel, React.js, Tailwind CSS, Bootstrap
Database: MySQL
